DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on May 30, 2006 has been entered.

Accordingly, the IDS is considered and acknowledged.

Claims 1 and 5-9 were cancelled and claims 2-4 are currently pending in this application.

Allowable Subject Matter

2. Claims 2-4 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly suggests or shows all of the limitations as claimed. Specifically,

Re claim 2, none of the prior art of record discloses, in combination with other limitations as claimed, that a part of end portions of the second electrode being in the area defined by the protrusion structure and a structure on the second substrate, and forming an obtuse angle with the protrusion structure is an overhanging portion extending beyond a borderline of the second electrode.

The most relevant reference, USPN 6,567,144 B1 to Kim et al. (Kim), fails to disclose or suggest a part of end portions of the second electrode being an overhanging portion extending beyond a borderline of the second electrode. As shown in Fig. 6A, Kim discloses a part of end portions of the pixel electrode 20 (in window b) being in the area decided by the protrusion structure 17 and a structure 27 on the second substrate 200, and forming an obtuse angle with the protrusion structure 17; however, the part of the end portion of the pixel electrode 20 is not an overhanging portion extending beyond a borderline of the pixel electrode 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thoi V. Duong whose telephone number is (571) 272-2292.
